You can search Google Books for any book or topic. In this case, let's go with "Alice in Wonderland" since it's a well-known book, and there's probably a free eBook or two for this title. The original work is in the public domain, so most of the variations are just with formatting and the number of illustrations included in the work. However, you might also run into several copies for sale, as reformatting the print copy into an eBook still took some work. Some of your search results may also be related works with the same title.

This book is the best Biology book I have ever seen and I am a biology student. Filled with color-filled pictures and explains all the processes so so so SO great; some of which are very difficult to follow in lecture, this book is like " here you go" with a nice picture and words that just speak to you.

A book by Jordan Peterson, I won't be able to do it justice. 12 Rules for Life is a wonderful book. It is typical Peterson with large amounts of insightful information and wit. The book includes information that I knew, did not know, and information I knew but did not know I knew (like a Peterson lecture).
