at the rear (probably similar to all tall-tubs). Unless you have a way to access the rear area of the machine when it's installed, you have to hook up the drain hose before you slide the machine in, which means that as you push the dishwasher in, that "excess" drain-hose will route itself however it sees fit.

info » Installation

Installation Guide

Before you push the dishwasher into the alcove, adjust the rear leveling feet to bring the top to within 1/2 inch of the countertop. Once the dishwasher is in place, open the door, place a level on the floor and adjust the front feet to level the appliance. Once it's level, screw it to the underside of the countertop.
