Fractions Study Guide. * Adding & Subtracting Decimals with LikeDenominators. Step 1: Make sure the denominators are the same $5 + 3 =$. Step 2: Add or subtract the numerators $5 + 3 = 8$. Step 3: The denominator stays the same $5 + 3 = 8$. Step 4: Simplify if necessary $8 \div 2 = 4$.

Fractions Study Guide - Tangipahoa Parish School Board

Fractions consist of two numbers: a numerator (which is above the line) and a denominator (which is below the line). The denominator tells you the number of equal parts into which something is divided. The numerator tells you how many of these equal parts are being considered. Thus, if the fraction is of a pie, the denominator 5 tells you that the pie has been divided into five equal parts, of which 3 (numerator) are in the fraction.

Fractions - CliffsNotes Study Guides
