advanced degree, up from 8.6 percent in 2000.

### **Number of People With Master's and Doctoral Degrees ...**

This leaves women taking the brunt work of childcare ... making it extremely challenging to also carry on with a full-time job in a high-stress high-hours field such as engineering. I feel that this won't bode well for the number of women in tech given how many women engineers will be having to drop out of the workforce.
